### **1.4. Information about Corporate Activities**

SASA constitutes a significant part of Türkiye's production capacity in this field with its polymerization capacity of approximately 1,2 million tons/year in the polyester fiber, filament and polymer sectors in which it operates.

The Company is an organization offering tailor made solutions to all sectors in the polyester market by monitoring the market dynamics, especially special polymers and chemicals, as a result of its Research and Development activities.

The main product groups of the Company and the sectors in which these products are used can be elaborated as follows.

#### **Fiber**

SASA Fiber Division manufactures for 3 different sectors with its products in different segments.

**Textiles:** Polyester staple fiber products are turned into fabric by producing 100% polyester and/or blended (cotton, viscose, acrylic, wool, nylon) yarn, then weaving and knitting processes.

In the textile sector, SASA stands out with its high tenacity and high modulus white products with high dye take-up, and black fiber, the production technology of which belongs to SASA.

**SASA POLYESTER SANAYİ A.Ş.**  
1 JANUARY – 30 SEPTEMBER 2024 INTERIM REPORT  
PREPARED IN ACCORDANCE WITH CMB COMMUNIQUÉ II-14.1

Our black fiber products make a difference to our customers with their deep black, high color fastness, easy processing and blending features compared to their competitors in the market.

***Comfort and Fiberfill Sector:*** After the fibers are combed, pilled or fiber bonded, they are turned into pillows, stuffing for toys, quilts, all kinds of coats, furniture fillings, beds, decorative pillows. SASA provides its customers with washable, durable and long-lasting filling raw materials with conjugated fibers showing the spring feature having the highest capacity in bicomponent fiber production in the European region, thanks to its own technology.

***Technical Textiles:*** They are used as the main raw material with different fiber bonding methods (mechanical, water needling and chemical), hygiene (wet wipes, pads, cosmetic wipes), medical (bandages, surgical drapes, masks), automotive (ceiling, floor and headgear carpets, insulating materials), artificial subcutaneous carriers, filters (liquid-gas), cleaning cloths, all kinds of garment interlining, plush, geotextile (stabilizers under asphalt, drainage, underground, garden), construction (acoustic insulation, roof insulation, floor coverings) and similar products. SASA creates value for its customers with tailor-made solutions and special products in the "Technical Textile" sector, which serves many different and niche sectors.

SASA is the leader in polyester fiber production in Türkiye, Europe and the Middle East with its polyester fiber production for different sectors.

### **Filament**

SASA Filament Division produces POY and textured yarns mainly for knitting and weaving.

Synthetic filament yarns made from 100% polyester are produced for the textile sector (Home Textile, Carpet, Underwear and Outerwear, Denim and Socks) and the packaging, health, automotive sectors that are supplied directly or indirectly from this sector.

While textured yarns are similar to natural fibers such as cotton, wool and linen with their appearance and properties, they are also used to add superior properties to the final product. POY, on the other hand, has a semi-drawn, unfolded and untwisted structure, and the product is rendered drawn and crimped by texturing. The resulting textured yarn is softer, more flexible and has a higher heat retention ability compared to plain yarn.

SASA offers consumers semi-matt ecru and black yarns with excellent dye take-up and color stability. Depending on consumer demand, our product range includes low-medium-strong centered yarns and plied yarns (x2, x3, x4).

Having adopted a customer satisfaction-oriented production approach, SASA tests the yarns it produces in its own laboratory. (Tension, Strength, Color, Center and Denier etc.)

### **Specialty Polymers and Chemicals**

SASA Special Polymers and Chemicals Division produces around the vision of developing products sensitive to human and environment and supplying them to customers within the geography it serves. The business line, which is structured in line with this vision, serves the following sectors:

**SASA POLYESTER SANAYİ A.Ş.**  
1 JANUARY – 30 SEPTEMBER 2024 INTERIM REPORT  
PREPARED IN ACCORDANCE WITH CMB COMMUNIQUÉ II-14.1

**Textile Industry:** Standard and high-viscosity polyester polyethylene terephthalate and polybutylene terephthalate polymer products are first made into yarn and fiber, and then into woven, knitted fabrics and non-woven textile surfaces.

**Industrial Sectors:** High-viscosity polyester polyethylene terephthalate and polybutylene terephthalate polymer products are used in industrial applications that require high strength depending on their end-use.

**Film and Packaging Industry:** Polyester polyethylene terephthalate polymer products, which are specially produced in accordance with the end-use purpose, are used in the production of films and packaging materials that may or may not come into contact with food. Antimony-free film-type polyester polymers, which are especially important in contact with food, are also included in the product portfolio.

**Engineering Polymers:** Polybutylene terephthalate and thermoplastic elastomer polymers are used in the production of automotive parts, electrical-electronic equipment, domestic appliances and various other plastic products by plastic injection method.

While SASA sells Specialty Polymers and Chemicals mainly to Europe, it also supplies products to the domestic market, the Middle East, North America and Asian countries, as well.

## **1.5. Vision, Mission and Corporate Values**

### **Vision**

As the first and largest polyester & polymer manufacturer of Türkiye, and the leader of the Europe, Middle East and Africa region; with a sustainable growth perspective, SASA aims to make Türkiye one of the top three polyester manufacturers in the world and to become one of the leading players on a global scale, together with its petrochemical investments.

### **Our Mission is;**

- To ensure sustainable growth
- To create value for all our stakeholders, especially our employees, suppliers, customers, shareholders and society
- To share this value fairly with all our shareholders in line with corporate and social responsibility principles
- To develop ourselves continuously by maintaining the spirit of innovation.

We accept all natural and non-living beings as a respectable whole with the awareness of our responsibility to leave a green and clean world to future generations while meeting the current needs of society.

### **Our Values;**

The core guiding values adopted by SASA with the principle of working in compliance with local and global ethical values are as follows:

**Our Ethical Approach:**

Corporate business ethics rules have been established and put into practice. Informing the employees about these rules is ensured through the publication of the rules on the Company's internal communication portal, the distribution of printed booklets to all employees, and the realization of informative training.

***A. Honesty***

Integrity and honesty are our primary values in all our business processes and relationships. We act with integrity and honesty in our relations with our employees and all our stakeholders.

***B. Confidentiality***

Confidential and proprietary information includes SASA (Company) information that may create a competitive disadvantage, trade secrets, financial and other information not yet made public, information on personnel rights and information within the framework of "confidentiality agreements" concluded with third parties. As SASA employees we take care to protect the privacy and private information of our customers, employees and other relevant persons and organizations we cooperate.

We protect confidential information about our Company's activities and use this information only for the Company's purposes; we share this information with the relevant persons only within the specified authorities. It is absolutely unacceptable for us to gain any commercial interest, including the buying and selling of shares from stock exchanges, by leaking any confidential information about the Company (insider trading). When leaving the Company, we do not let out confidential information and documents, projects, regulations and similar works that we have due to our duties.

***C. Protection of Personal Data***

The employee cannot share, transmit, disclose, misuse the personal data and sensitive personal data belonging to employer or employer's representatives, employees, subcontractor employees, customers, suppliers, third parties, guests, job applicants, interns and all natural persons related to the Company's activities at the workplace in written, audio or visual form, or gain personal benefit in this way without the written consent of the data subject and the employer.

***D. Conflict of Interest***

The use of company resources, name, identity, and power for personal benefit, situations that may adversely affect the name and image of the corporation are defined as Conflict of Interest.

As SASA employees, we aim to avoid conflicts of interest. We do not derive personal benefits from individuals and organizations with whom we have business relations, personally, through our family or relatives by taking advantage of our current duties and responsibilities. We do not engage in business activities outside the Company based on an additional financial interest. We avoid using SASA's name and power, our SASA identity, for personal benefit. In the event of a potential conflict of interest, we apply these methods when we believe that the interests of relevant parties can be safely protected through legal and ethical methods. When in doubt, we consult our manager, the Human Resources or the Company's Code of Ethics Advisor.

***E. Our Responsibilities***

In addition to our legal responsibilities; we take care to fulfill our responsibilities towards our customers, employees, shareholders, suppliers and business partners, our competitors, society, humanity and SASA name within the framework of SASA Code of Business Ethics.

***1. Legal Responsibilities:***

We carry out all our current activities and transactions domestically and abroad within the framework of the laws of the Republic of Türkiye and international law, we provide accurate, complete and comprehensible information to legal regulatory institutions and organizations in a timely manner. While carrying out all our activities and transactions, we keep an equal distance to all kinds of public institutions and organizations, administrative formations, non-governmental organizations and political parties without any expectation of benefit, and we fulfill our obligations with this sense of responsibility.

***2. Our Responsibilities Towards Our Customers:***

We work with a proactive approach focused on customer satisfaction, responding to the needs and demands of our customers in the shortest time and in the most correct way. We deliver our services in a timely manner and under the promised conditions, we approach our customers within the framework of the rules of respect, honor, justice, equality and courtesy.

***3. Our Responsibilities Towards Employees:***

provide timely, accurate, complete and comprehensible information about our financial statements, strategies, investments and risk profile in our public statements and to our shareholders.

***5. Our Responsibilities Towards Our Suppliers/Business Partners:***

We act fairly and respectfully, as expected from a good customer, and show due diligence to fulfill our obligations in a timely manner. We pay attention to protect the confidential information of the people and organizations we do business with and our business partners.

***6. Our Responsibilities Towards Our Competitors:***

We compete effectively only in areas that are legal and ethical, and we avoid unfair competition. We support efforts to ensure the targeted competitive structure within the society.

***7. Our Responsibilities Towards Society and Humanity:***

Protection of democracy, human rights and the environment; education and charity work, the elimination of crime and corruption are very important to us. We act sensitively as a pioneer in social issues with the awareness of being a good citizen, we try to take a role in non-governmental organizations, public interest services, and appropriate activities on these issues. We are sensitive to the traditions and cultures of Türkiye and the countries where we carry out international projects. We do not give or accept bribes or gifts and similar products and services at an exorbitant price.

***8. Our Responsibilities Towards the Name of “SASA:***

Our business partners, customers and other stakeholders trust us because of our professional competence and integrity. We try to keep this reputation at the highest level.

We offer our services within the framework of corporate policies, professional standards, commitments and ethical rules, and we show the necessary dedication to fulfill our obligations. We pay attention to serve in areas we believe we are and will be professionally competent, and we aim to work with customers, business partners and employees who meet the criteria of accuracy and legitimacy.

We do not work with those who harm the morality of the society, harm the environment and public health.

We express only the Company's views, not ours, in public and in areas where the audience thinks we are speaking on behalf of the Company.

When faced with complex situations that may put the Company at risk, we first consult with the relevant employee, following appropriate technical and administrative consultation procedures.

As a result of the review study conducted on 26 March 2024, the international credit rating agency Fitch Ratings has affirmed SASA Polyester (SASA) Long-Term Issuer Default Rating of “B”, and the Outlook is “Negative”.

As a result of the review study conducted by JCR Avrasya Derecelendirme A.Ş., it has been affirmed on 27 July 2024 that SASA Polyester (SASA) Long-Term Issuer Default Rating is "A+ (Tr)", and the Outlook is “Stable”.

## 2. DEVELOPMENTS AND ACTIVITIES FOR THE YEAR 2024

### 2.1. Sectoral Analysis

Oil prices have fluctuated during this period compared to other periods of the year. Brent oil prices fluctuated between 69 USD/barrel and 88 USD/barrel during this period with the average price of 78 USD/barrel. Since oil prices are one of the primary determinants of raw material prices in our sector, these fluctuations had a direct impact on it.

Although being decreased, transportation problems that arose due to the problems in the Red Sea continued to affect our sector in the 3rd quarter of the year. The transit time between the Far East and our nearby geography is still well above average. Due to the problems and uncertainties in the Suez Canal, many shipping agencies continue to use the Cape of Good Hope, which extends the duration of the journey. In addition, freight rates have eased in this quarter of the year compared to the previous quarter. Despite this decrease in freight rates, current freight levels can be considered high. Although freight rates between Asia and our region have slightly decreased in the 3rd quarter of the year, transportation costs between North America and our region are on the rise.

As experienced in the first half of 2024, difficulties in accessing financial resources continue in the third quarter as a result of the policies pursued within the scope of combating high inflation. The effects of these practices are observed not only in our country but also in our important export markets such as Europe. The suppressive effects of these steps taken within the scope of combating inflation on demand were observed in this quarter as well.

**SASA POLYESTER SANAYİ A.Ş.**  
1 JANUARY – 30 SEPTEMBER 2024 INTERIM REPORT  
PREPARED IN ACCORDANCE WITH CMB COMMUNIQUÉ II-14.1

In addition to the low demand resulting from the macroeconomic policies implemented in our most important export market, the economic recession in the Far East and especially in the People's Republic of China is also seriously affecting our sector. Due to the economic recession and deflation threat in the People's Republic of China, Chinese manufacturers are acting much more aggressively in foreign markets. Far Eastern players that cannot meet their current capacities with domestic demand in our sector and other sectors, are trying to fill the gap by applying much lower margins in foreign markets. Accordingly, there has been a decrease in demand in our sector.

The ongoing political crises in our nearby geography continue to directly or indirectly affect our sector. Our sector and other sectors that it supplies products have lost serious ground in the Russian market due to the US sanctions following the Russia-Ukraine war in our north. The Russian market is very important for the Turkish textile sector. The ongoing conflicts in the Middle East and the policies followed accordingly are also seriously affecting our trade relations with the Middle East.

In our industry, protection and anti-dumping investigations continue to increase both in terms of raw materials and final products. The fact that protection and antidumping issues are brought up so often in the polyester industry can be indirectly evaluated as countries attaching importance to the polyester industry. During this period, additional measures against resin imports from China continue to be on the agenda in South Korea. Brazil has increased the customs duty on many petrochemical products, including polyester resin, to 20%. In the USA, protection duty negotiations are ongoing for fine denier (under 3 denier) ecru fiber.

## **2.2. Production Activities**

Improvement studies carried out to increase efficiency in production processes and minimize lost time in our facilities and in parallel to this, the wide application of statistical process control methods played a role in increasing the added value in our production.

We have continued to work on projects that make a difference in many areas such as Energy Efficiency, Sustainability, Corporate Risk Management, Renovation, Innovation, Investment in People, which started in the past years, and we continue to contribute in a sustainable framework.

As in previous years, we supported our successful activities that create added value for the Company, such as ISO 9001 quality management systems and process management, ISO 50001 energy management system, ISO 31000 corporate risk management systems, 5S, PSRM and TPM, with internal and external training activities. We continue to carry out these activities intensively in line with our continuous improvement approach.

## **Volume of Production Amounts (Tons)**

The volume of production in our main product groups are indicated below in comparison.

Poy	200,933	242,200	-41,267	-17%
Polyester Filament	101,123	122,082	-20,959	-17%

### **Capacity Information**

PTA is processed with Monoethylene-glycol (MEG) in PTA-based production, and shipped to polymerization facilities, where liquid polymer is obtained. The company has a production capacity of 1,2 tons/year.

As a result of processing the polymer transferred to our fiber, filament and polyester chips facilities, staple fiber, POY, yarn and polyester chips are produced. A part of our POY production is processed in the form of textured yarn in the filament facility and supplied to the market, and it is also sold as POY.

The Company has a capacity of approximately 446,628 tons/year fiber, 367,500 tons/year POY, 218,750 tons/year yarn and 1,197,000 tons/year polyester chips, 132,300 tons/year SSP chips.

The utilization rate of the polymerization capacity of the Company in the first nine months of 2024 was 79%. (for 2023: 76%)

### **2.3. Occupational Health, Safety and Environment Activities**

The works of OHS and Environment unit are carried out in Sasa Polyester Sanayi A.Ş. by believing in the importance of everyone working in a healthy and safe environment and protecting the natural environment, and that this is an integral part of the Company's success. The target set by SASA in terms of occupational health and safety is "Zero Accident, Zero Risk" and all activities are carried out in accordance with the principles determined in line with this target.

In 2024, drones have been successfully added to the technical equipment currently used in the field of firefighting. Drones will reach places that our firefighters and other equipment cannot reach and will contribute greatly to our firefighting capacity.

Sasa Polyester Sanayi A.Ş. will continue to act and show the highest level of sensitivity to resource efficiency in all its activities and processes, being aware of its environmental and social responsibilities, complying with its legal obligations on occupational health and safety, as well as focusing on sustainable development. Our company has fulfilled all its obligations under the Environmental Law No.2872 dated 9 August 1983, in the first nine months of 2024, as in previous years. No environmental penalty sanctions have been imposed on our company within the scope of this law.

**SASA POLYESTER SANAYİ A.Ş.**  
1 JANUARY – 30 SEPTEMBER 2024 INTERIM REPORT  
PREPARED IN ACCORDANCE WITH CMB COMMUNIQUÉ II-14.1

SASA has adopted a sustainable business model in line with its sustainability strategy determined in line with the Paris Agreement and the European Union Green Deal and published its prioritized sustainable development goals including environmental, social and governance elements on its corporate website.

<https://www.sasa.com.tr/en/sustainability/our-strategy/sustainable-development-goals>

SASA has acted with a collective consciousness by involving its customers, suppliers, employees and all other stakeholders in all activities carried out in the first nine months of 2024 that have the potential to affect its stakeholders. In all production activities, environmental processes were handled with a life cycle approach, and the requirements of environmental and social conditions were fulfilled by taking into account both national and international standards and special standards of customers. In this context, audits carried out by third-party auditors within the Company were successfully completed. Our practices in the field of environmental and social sustainability are explained in detail on our corporate website (<https://www.sasa.com.tr/sustainability-environmental-sustainability>). The Sustainability Report prepared on an annual basis is also announced on our corporate website and Public Disclosure Platform (KAP).

Within the framework of the Sustainability Awards organized by the European Bank for Reconstruction and Development (EBRD), our company was deemed worthy of the Silver award as the second-best project owner in the Environmental and Social Best Practice category among the projects whose signature process has been completed all over the world.

SASA became the first company in Türkiye's polyester industry to be awarded the Environmental Label for sustainable fiber production and clean production processes. Committed to minimizing environmental impacts and adhering to sustainability principles in its own processes, SASA aims to add value to both the environment and society by paving the way for environmentally friendly practices in the sector.

Within the scope of its commitment to advance the circular economy in the textile sector, SASA continues its work to establish a bio-recycling facility that will enable the production of polyester chips and resin, fiber and filament yarn from polyester textile waste.

## **2.4. Investments**

### **PTA Production Plant Investment**

The PTA Production Plant, which is currently under construction on a total of 375 acres of land in the Company's Adana premises, will meet SASA's existing facilities' PTA need as well as the need arising from the capacity increase resulting from its ongoing and planned investments. The production capacity of the plant, whose investment cost is expected to reach USD 1.7 billion, will be 1.75 million tons/year.

The Plant is expected to start production in December 2024, and to provide an additional annual EBITDA of around USD 200 million.

**SASA POLYESTER SANAYİ A.Ş.**  
1 JANUARY – 30 SEPTEMBER 2024 INTERIM REPORT  
PREPARED IN ACCORDANCE WITH CMB COMMUNIQUÉ II-14.1

**Textile Chips, Bottle Chips, Pet Chips (MTR) Production Plant Investment**

The Textile Chips, Bottle Chips, Pet Chips Production Plant investment with an annual capacity of 330,000 tons which is under construction in Adana premises, is planned to be commissioned in the first quarter of 2025. The investment cost of the plant is estimated to be USD 160 million and its contribution to turnover is expected to be approximately USD 400 million per year.

**Fiber Production Plant Investment**

The Fiber Production Plant investment with a total annual capacity of 402,500 tons, which is under construction in Adana premises, is planned to be commissioned in the second quarter of 2025. The investment cost of the plant is estimated to reach USD 450 million, and its contribution to the turnover is expected to be approximately 500 million USD per year.

The plant will consist of two separate units: a section that will produce Fibers with an annual capacity of 350,000 tons and a section that will produce Low-Melt Polyesters with an annual capacity of 52,500 tons. The investment, which will house Türkiye's first Low-Melt Fiber Production Facility, will meet the raw material need of nonwoven products used in the hygiene, furniture, textile and health sectors, which is still completely dependent on import, with domestic production.

**Gaziantep SPP Investments**

The Land SPP investment with a total power of 40 MWp and an approximately investment amount of USD 25 million is continuing on the lands in Şehitkamil district of Gaziantep province. The energy to be provided from the project, which is expected to be completed in 2025, corresponds to approximately 10% of our Company's current annual electrical energy consumption.

**Yumurtalık Petrochemical Plant Project**

Approximately 4 million m<sup>2</sup> of land in the Adana/Yumurtalık district was purchased in August 2022 through a privatization tender to build Türkiye's largest petrochemical projects to date. 25% of the real estate price of TRY 2.139 billion was paid in cash and the remaining amount is paid in equal installments over 5 years. As of the end of September 2024, the purchase of 6 million m<sup>2</sup> of land has been completed. While land purchases continue, legal procedures are being carried out in order to start facility construction as well.

SASA plans to develop this land as a petrochemical production plant where semi-processed raw materials used in polyester polymer production as well as some high-value-added products will be manufactured. Production in the facilities to be established in the project area, which is planned to reach a total area of 10 million m<sup>2</sup>, will be 100% import substitution. The project, which is expected to be completed in approximately 12 years with an investment amount of USD 20 billion, is planned to be started in 2026 after the ongoing investments are completed and start generating cash flow.

**Financing Resources and Government Incentives**

The Company's focus in financing its investments is to provide access to long-term and cost-effective financing sources. In this context, especially ECA (Export Credit Agency) loans are utilized.

**SASA POLYESTER SANAYİ A.Ş.**  
1 JANUARY – 30 SEPTEMBER 2024 INTERIM REPORT  
PREPARED IN ACCORDANCE WITH CMB COMMUNIQUÉ II-14.1

For the PTA production plant investment, a total loan of EUR 589 million was obtained in December 2022 with the support of CESCE (Spanish Export Credit Insurance Company), with a maturity of 30 September 2033 and semi-annual payments. Beside, a loan agreement of EUR 75 million was signed with the European Bank for Reconstruction and Development (EBRD) in September 2023, and this amount was used in December 2023.

The investment incentive certificate for PTA and Polymer Chips Production Plants Investment obtained by our Company on 4 January 2021 with a total amount of TRY 26,570,836,665, which was updated on various dates, was lately revised as a result of the acceptance of the revision application and reached to TRY 47,964,829,209. In addition to the investment in PTA and Polymer Chips Production Plants, incentive certificates were obtained on 5 September 2023 for the Solar Power Plant (SPP) investment installed on the roofs of the buildings in our Adana headquarters and on 13 September 2023 for the Fiber Production Plant under construction. Revised investment amounts subject to incentive certificates, incentive components and allowance amounts to be utilized are stated in detail in the financial statements under the section of "Tax Assets and Liabilities/Government Incentives and Aids".

## **2.5. R&D Activities**

SASA continued its R&D activities in the first nine months of 2024, as well, to develop new products and business lines in the corporate competency areas where it is strong, especially sustainable and environmentally friendly specialty products, that will create value for all its stakeholders.

The company has the R&D center certificate given by the Ministry of Industry and Technology of the Turkish Republic within the scope of the Law No. 5746 on Supporting Research, Development and Design Activities.

In the competitive and ever-changing conditions of the sector it is in, SASA, evaluating customer and market needs in detail and combining it with its technical possibilities, has effectively used its knowledge and superior technology in creating and developing new business opportunities. Project studies, which can be summarized as follows, have continued in line with the main corporate strategies;

- growing in the field of polyester-based polymers and developing new polymer solutions,
- growing in the fiber field and optimization of the product portfolio,
- growing in the development of new business areas by cooperating with other organizations.

SASA attaches foremost importance to innovation and continuous development. In this context, to benefit from artificial intelligence in both production and management processes in 2024, a collaboration has been established with ZEKI (Center for Tangible Artificial Intelligence and Digitalization), one of the world's leading artificial intelligence research centers. The company aims to use artificial intelligence applications in a short time actively and to be a pioneer in this regard.

**SASA POLYESTER SANAYİ A.Ş.**  
1 JANUARY – 30 SEPTEMBER 2024 INTERIM REPORT  
PREPARED IN ACCORDANCE WITH CMB COMMUNIQUÉ II-14.1

In the first nine months of 2024, as well, resources were allocated for the development of new environmentally and “human-friendly” products, especially in line with sustainable, new local and international regulations; and efforts were continued to commercialize many special products in the special polymer class during the year, and present them to our customers. The share of the products developed in this context, as of the report date in the Company's total sales is approximately 8.4% (7.2% in 2023)

### **Specialty Polymers and Chemicals**

**PTA-based polymers:** SASA created its PTA-based polymer product portfolio in 2015 within the scope of its “Customer-oriented P&D” targets, and completed the development studies for products for different usage areas, especially packaging and textiles, and commercialized them. In line with our customer-focused P&D approach, we continue to work on product development in the first nine months of 2024, as well.

**Low melt polymers:** In 2015, SASA expanded its current low melting point polymer product portfolio by developing homopolymers and copolymers with different crystallization properties, different glass transition and melting temperatures, with different additives for different usage areas in line with customer demands. Our work continues in the first nine months of 2024, as well.

**Textile grade heavy metal-free polymers:** The chemicals used to initiate and continue the process in the production of polymers are called “catalysts”. Heavy metal content in polymers is not preferred when it comes to special usage areas. SASA, which commercially produces the industry's first heavy metal-free polymers for food packaging, also started the production of textile grade polymers developed with a heavy metal-free catalyst system in 2014. In the first nine months of 2024, the usage areas of textile grade heavy metal-free polymers were privatized and their usage areas were expanded, as well.

All our product and process development activities to be carried out from now on will focus on our technological competencies in order to create added value in new business areas and markets in polyester-based and non-polyester polymers and chemicals, fiber and yarn products.

## **2.8. Social Responsibility Activities**

SASA aims to add value to society by developing projects in areas such as education, culture, art, environment and sports with a sense of social responsibility and by supporting individuals and organizations operating in these areas. In addition, SASA works to fulfill its duties and responsibilities towards society in line with the United Nations 2030 Sustainable Development Goals; it also contributes to NGOs such as the Red Crescent, AFAD and the Child Protection Agency through donations and develops social responsibility projects within the Company.

With the social responsibility projects it realizes, SASA also fulfills its commitments within the scope of the 10 principles of the UN Global Compact (UNGC), of which it has been a supporter since 2022.

### Educational support:

- With our scholarship program, which we have been running since 2017, we offer scholarships to the children of our employees who are studying at university.
- We contact the career centers of universities and publish job postings. In addition, we meet the technical trip or conference demands of Türkiye's leading universities and convey SASA's experience in the industry to our young people who are preparing for business life.

### Incubation Center:

- We established the Incubation Center library of the ADANA Organizational Industrial Zone (OSB) Directorate, and we contribute to the development of the industry by providing mentoring services.

### Turkish Employment Agency (İŞKUR) Trainee Training Program:

- Within the scope of İŞKUR, we give 6-month training to candidates and then provide employment opportunities after the training.

### Project studies:

- In the field of polyester-based polymers, projects are carried out to develop new polymer solutions in terms of human health and environmental sensitivity.

### SASA Memorial Forest:

- Within the scope of the protocol signed with Adana Provincial Directorate of Forestry; saplings were planted in the SASA Memorial Forest on 200 hectares of land in Adana Aladağ District and on 300 hectares in Osmaniye Kadirli district, together with SASA Employees and Forest Management employees for our forests burned. In April 2024, hoeing and maintenance works were carried out in the SASA Memorial Forest.
- A three-year maintenance plan was made for the forest, which was carried out jointly with the Regional Directorate of Forestry for the afforestation of 500 hectares of land affected by forest fires in Adana, and saplings were planted in 2022. Maintenance work is being carried out periodically.

### Social and sports activities:

- Within the scope of the protocols signed with the Metropolitan and Seyhan Municipalities in Adana province, SASA completed the construction of Haydaroğlu and Dr. Mehmet Şeker

In addition, a protocol was signed with Seyhan Municipality for 2 kindergartens and 1 pool complex and the construction of Barış Day Care Center started in 2023.

### **3. CORPORATE GOVERNANCE**

#### **3.1. Structure and Activity Principles of the Board of Directors**

The Company is managed and represented by a Board of Directors consisting of at least 5 and at most 12 members elected by the General Assembly within the framework of the provisions of the Turkish Commercial Code and the Capital Market Legislation. The majority of the members of the Board of Directors are non-executive members who are defined in the Corporate Governance Principles. Four of the members of the Board of Directors are independent members, and the members of the Board of Directors are elected by the General Assembly in line with the Corporate Governance Principles. The term of office of the members of the Board of Directors is three years at the most. A member whose term has expired can be re-elected. If a membership becomes vacant for any reason, the Board of Directors elects a new member for the new membership and submits it to the approval of the General Assembly at its first meeting. This member completes the remaining term of his predecessor.

As a result of the distribution of duties among the members of the Board of Directors in accordance with the Article 13 of the Company's Articles of Association, Mr. İbrahim Erdemoğlu was elected as the Chairman and Mr. Ali Erdemoğlu as the Deputy Chairman of the Board of Directors. Board members Servi Sebe, Ayten Topalkara and Tuba Yağcı were appointed as members of the Audit Committee, the Corporate Governance Committee by the decision of the Board of Directors. Except for these assignments, no special authority has been assigned to any of the members of the board of directors, nor has any special responsibility been given.

Members of the Board of Directors have the authorities determined by and set forth in the Turkish Commercial Code, the Articles of Association, and other relevant legislation. The management rights and representation powers of the Company's Board of Directors are defined in the Articles of Association.

The Company's Articles of Association contain provisions regarding the meetings of the Board of Directors. Accordingly, the dates and agenda of the Board of Directors meetings are determined by the chairman or his deputy and convened upon the call of the chairman or his deputy. The defined agenda and the issues included in the agenda are communicated to the Members of the Board of Directors in advance so that they can carry out the necessary work.

In the first nine months of 2024, the actual participation of the members without an excuse to the Board of Directors meetings was ensured. In the first nine months of 2024, 28 physical meetings were held and the participation rate in these meetings was 100%. Independent Board Members participated in all the decisions taken and no different opinions were expressed against the decisions taken by the Members of the Board of Directors. Since the members of

**SASA POLYESTER SANAYİ A.Ş.**

PREPARED IN ACCORDANCE WITH CMB COMMUNIQUÉ II-14.1

the Board of Directors did not have questions about these matters, they were not recorded in the minutes. Members of the Board of Directors are not granted weighted voting rights and/or veto rights regarding the said resolutions.

Although the members of the Board of Directors of the Company were allowed by the Board in the first nine months of 2024 in line with the Articles 395 and 396 of the Turkish Commercial Code, they did not make any transactions with the Company on behalf of themselves or anyone else and did not take initiatives to compete in the same field of activity.

### **3.2. Committees of the Board of Directors**

There are the Corporate Governance Committee, Audit Committee, and Early Detection of Risk Committee under the Board of Directors. Since a separate Nomination Committee and Remuneration Committee have not been established in the current structure of the Board of Directors, the company's Corporate Governance Committee also fulfills the duties related to these committees.

The term of office of the members of the Committees formed within the Board of Directors is parallel to the term of office of the members of the Company's Board of Directors. Committees are re-formed following the election of the members of the Board of Directors.

The Company has 4 Independent Board Members. Our Independent Members of the Board of Directors, Servi Sebe is in four committees; Ayten Topalkara and Tuba Yağcı are in three committees; and Kadir Bal is in one committee.

The committees have been working on a regular basis since the date they were established. The committees act within their own authority and responsibility and make recommendations to the Board of Directors. There were no conflicts of interest in the Committees the first nine months of 2024.

#### **Corporate Governance Committee**

PREPARED IN ACCORDANCE WITH CMB COMMUNIQUÉ II-14.1

No representative has been appointed to carry out relations with the employees within the company. In the first nine months of 2024 and before, there were no complaints about discrimination from the employees.

### **3.4. Corporate Risk Management**

The Company carries out its Corporate Risk Management in accordance with the SASA Corporate Risk Management Policy based on ISO 31000 / Risk Management - Principles and Guidelines Standard, believing in its past experience, knowledge and energy. The Board of Directors is committed to fulfilling the requirements set out in the corporate risk management policy and expects employees to fulfill the same commitments.

#### ***Risk Management Policy***

As an integrated polyester and chemicals manufacturer open to the world, in order to provide the highest value to all its stakeholders; Sasa Polyester Sanayi A.Ş. adopts the following;

- Establishing and implementing a Risk Management System based on the principles of protecting the values of assets, operational safety and sustainability and in line with strategic objectives,
- Predicting, managing and monitoring the potential risks in all processes and functions, creating the necessary action plans in advance and improving them continuously,
- Determining the responsibilities related to Risk Management in order to eliminate the risks or reduce them to an acceptable and applicable level by considering all risk levels in the activities,
- Ensuring that system goals are communicated to employees, understood clearly and communication channels are kept open accordingly,
- Periodic review of the policy and system by the Top Management and ensuring its continuity,
- Providing all kinds of resource needs for the management of the identified risks,
- Ensuring compliance with the applicable laws, statutes and regulations in force and fulfilling its responsibilities towards the environment, customers, suppliers and employees it interacts with.

It is applied in all functions operating throughout the corporation covering the legal, financial, operational, strategic and environmental risk elements of all processes within the framework of Corporate Risk Management studies.

The Early Detection of Risk Committee, which reports to the Board of Directors, manages the process of identifying, assessing and mitigating risks in business processes and operations, thus forming the main structure of the Company's risk management and ensuring the continuity of the risk management cycle.

#### ***Risk Assessment***

The Company assesses potential risks under four main risk categories: financial, operational, strategic and environmental. Environmental, social and governance risks, including climate crisis risks, are managed in an integrated manner under these categories. The ESG risk categories addressed by the Company are as follows:

**SASA POLYESTER SANAYİ A.Ş.**  
1 JANUARY – 30 SEPTEMBER 2024 INTERIM REPORT  
PREPARED IN ACCORDANCE WITH CMB COMMUNIQUÉ II-14.1

- Environmental Security and Climate Crisis
- Technological Innovations
- Occupational Health and Safety
- Corruption
- Business Interruption
- Employee Satisfaction
- International Impact
- Ethics

With the risk impact assessment table created in accordance with the categories, the impact and probability ranges of the risks are defined and the relevant business units responsible for taking actions that can minimize these risks are included in the process. In this way, with a corporate business management perspective, behaviors or actions that are likely to affect the operation and strategies of the company are planned in advance and made manageable.

***Risk Management Process and Risk Management Cycle***

The execution of the relevant activities is ensured by the Corporate Risk Management Procedure established in line with the Corporate Risk Management Policy. Risk management process is created according to the risk management flow chart defined in the corporate risk management procedure. In the corporate risk management process;

- Risk awareness is ensured within the company; surprises are minimized by applying proactive management in line with the determined risk appetite.
- Losses and costs that may be encountered due to risks are minimized.
- Sustainable growth is ensured through income stability.
- Company reputation and trust are enhanced through social responsibility activities.
- Continuous compliance with legal regulations is ensured.

The risk management cycle ensures the effectiveness of the risk management process. The continuity of risk management and the fulfillment of commitments at all levels require strategic and meticulous planning as well as strong and sustainable commitments by the company management. In order for the commitments to be sustainable, compliance of the risk management policy, which is in line with the company culture, the company's performance indicators and legal and regulatory compliance, is also taken into consideration.

Stakeholders are engaged and their views are taken into account to ensure the appropriateness of the risk management framework. As part of the risk management processes, a risk management plan, which is established at all relevant levels and practices of the company, commits to the implementation of the risk management process. Risk management performance is periodically measured according to relevant indicators for compliance to support the Company's performance and to demonstrate that risk management is effective and continuous. In line with the risk management plan, periodic observations are made and reports are provided on the monitoring of the risk management policy. Thus, the effectiveness of the risk management framework is examined. Depending on the results of monitoring and review, decisions are made on how to improve the risk management framework, policy and plan, and the framework is designed in accordance with these decisions.

1 JANUARY – 30 SEPTEMBER 2024 INTERIM REPORT  
PREPARED IN ACCORDANCE WITH CMB COMMUNIQUÉ II-14.1

***Financial Risk Management***

The financial risks to which the Company is exposed through its operations are market risk (currency risk, interest rate risk), credit risk, liquidity risk and funding risk. The Company's overall risk management program focuses on the unpredictability of financial markets and aims to minimize potential adverse effects on the Company's financial performance. Financial risk management, except for receivables, is carried out by the Company's Finance Department within the framework of policies approved by management. The Finance Department works in close cooperation with other units of the Company and ensures that financial risks are identified and evaluated so that the Company is protected from risk.

The Company is exposed to exchange rate risk arising from exchange rate changes due to the conversion of liabilities or receivables in foreign currency into Turkish lira. The exchange rate risk in question is monitored by analyzing the foreign exchange position and is limited to sales in foreign currency or indexed to foreign currency.

The nature and level of risks arising from financial instruments are disclosed to the public at regular intervals in the financial statements.

**3.5. Internal Audit and Internal Control**

Internal audit and internal controls are carried out to execute the Company's activities and services in an effective, reliable and uninterrupted manner, to develop the Company's risk management, control system and corporate governance practices and to contribute to the Company's achievement of its corporate and economic goals, and to ensure the integrity, consistency and reliability of the information provided by the accounting and financial reporting system.

Internal audits are carried out periodically with internal audit teams that have completed the necessary training for the sustainability of management system expectations and the continuity of certification processes. All audit reports are presented to the Top Management and evaluated at the management review meetings.

The existence, functioning and effectiveness of internal audit and internal controls are carried out through the Audit Committee established within the Board of Directors. The Audit Committee presents its activities, findings and suggestions regarding its duties and responsibilities to the Chairman of the Audit Committee.

The Audit Committee meets on a regular basis to discuss the adequacy of the internal control system. Every year, the risks related to all processes are reviewed and the processes to be audited are identified. Auditable processes have been determined with the Audit Axis created within the corporation, and residual risk scores have been identified according to the natural risk factors and the status of internal control systems.

The actions taken by the Company executives regarding the internal control deficiencies observed within the framework of the Audit Reports were subsequently followed up, and the adequacy of the actions taken was questioned by observing their impact on the risk level.

### **3.6. Strategic Goals of the Company**

Our first priority is the safety and health of our employees, the environment (the region where our facilities are located and all its surroundings), our customers and our neighbors. One of our most important goals is to be a respected corporate citizen.

The strategic goals created by the executives are approved by the Company's Board of Directors. ## **5. CORPORATE GOVERNANCE REPORTS**

### **5.1. Corporate Governance Principles Compliance Statement**

SASA Polyester Sanayi A.Ş. (SASA), complies with the mandatory principles under the scope of "Corporate Governance Communiqué" of Capital Markets Board (CMB) entered into force by being issued on the Official Gazette dated 3 January 2014 and numbered 28871; and applies these principles.

The Corporate Governance Principles Compliance Report (CRF) and Corporate Governance Information Form (CGIF) templates, which were prepared in accordance with the procedures and principles determined in the CMB's resolution dated 10 January 2019 and numbered 2/49, and were announced to the public at [www.kap.org.tr](http://www.kap.org.tr). CRF, which shows the compliance with non-mandatory principles, is available at the "Corporate Governance Principles Compliance Report" tab on the Company's page on the Public Disclosure Platform's (KAP) website; CGIF, which shows the current corporate governance practices, is available at the "Corporate Governance" tab. CRF is also available on the Company's website at Investor Relations/Investor Relations/Reports/Corporate Governance Principles Compliance Report. (<https://sasa.com.tr/investor-relations-investor-relations-reports-corporate-governance-compliance-report>)

The corporate governance principles compliance reports prepared on the CRF and CGIF templates were accepted with the resolution of our Board of Directors dated 5 March 2024 and numbered 7, along with the financial statements and the annual report of the Company for the year 2023.

SASA has made it a principle to comply with the Corporate Governance Principles published by the CMB and the four principles of Corporate Governance as 'transparency', 'fairness', 'responsibility' and 'accountability', and to make arrangements on issues to be complied with, depending on the developing conditions.

SASA has taken the necessary steps in line with the Corporate Governance Principles and has shown that it is aware of its responsibilities towards all its shareholders and stakeholders, with the activities it has carried out to date and its determination to comply with the Corporate Governance Principles.

SASA believes in the importance of full compliance with Corporate Governance Principles. However, full compliance has not been achieved yet due to the difficulties experienced in the implementation of some of the non-mandatory principles, the ongoing discussions both in our country and in the international platform regarding compliance with some principles, and the fact that some principles do not fully overlap with the current structure of the market and the Company. Developments on the subject are being followed and our work on compliance continues.

#### ***Principles with No Fully Compliance from the Mandatory Principles***

The Company complies with all of the mandatory principles included in the Corporate Governance Communiqué no. II-17.1 ("Communiqué").

**SASA POLYESTER SANAYİ A.Ş.**  
1 JANUARY – 30 SEPTEMBER 2024 INTERIM REPORT  
PREPARED IN ACCORDANCE WITH CMB COMMUNIQUÉ II-14.1

*Principles with No Fully Compliance from the Non-Mandatory Principles*

-Principle 1.5.2: Minority rights are not determined lower than one-twentieth of the capital by the articles of association. According to Article 36 of our Articles of Association, in the absence of a provision in the Articles of Association regarding minority rights, the provisions of the Turkish Commercial Code and the Capital Markets Law are applied.

-Principle 4.5.5: Due to the limited number of board members and the business expertise required for committee membership, our independent board members have duties in more than one committee. Committee members can devote sufficient time to the tasks and work of the committees. Since the current structure provides communication between committees and increases the opportunities for cooperation, no change is planned within the framework of the said principle.

-Principle 4.6.1: There is no specific study conducted or planned for the future to evaluate the performance of the board of directors itself.

*Principles with Partial Compliance from the Non-Mandatory Principles*

-Principle 3.1.2: The rights of all stakeholders are managed in accordance with national and international legal norms. Although the company does not have a written compensation policy for its employees, no legal action has been taken in this regard.

- Principle 3.2.1: Although there is no provision in the articles of association, the participation of employees in management is supported by in-house practices. Employees; provide feedback to management and colleagues through periodic meetings, annual goal-setting, and performance evaluation meetings; the results are discussed at various management meetings and action plans are created for necessary changes. With these approaches, the necessary participation and contribution of the employees is ensured for the effective management of the Company.

-Principle no. 4.4.7: The members of the board of directors are not restricted from taking on other duties outside the company. CVs of the Board members and their duties outside are disclosed on KAP and in annual reports, and in General Assembly Information Documents as well. Members of the board of directors allocate a reasonable time for the business of the Company and they don't hinder their duties. Due to the positive contribution of our board members' business and sectoral experiences, there is no need to limit their external duties.

-Principle no. 4.6.5: Remunerations determined at the general meeting for members of the board of directors are disclosed in the annual report. The financial rights of senior executives are considered trade secrets in terms of competitiveness. In this context, benefits (salaries, bonuses etc.) provided to senior executives are shared in the annual report not on an individual basis but in total. No change is foreseen in this regard.

In the first nine months of 2024, there was no conflict of interest that the Company was exposed to due to the lack of full compliance with non-mandatory corporate governance principles.

In order to comply with the principles in the upcoming period; necessary studies will be continued by considering the regulations and practices in the CMB's Communiqué no. II-17.1 on Corporate Governance, which was published in the Official Gazette dated 3 January 2014.

## **5.2. Sustainability Principles Compliance Statement**

SASA Polyester Sanayi A.Ş. (SASA) continues its activities by focusing on Environmental, Social, and Corporate Governance (ESG) targets in line with its sustainable development strategies to become a giant petrochemical company.

SASA has complied with most of the basic principles determined by the Sustainability Principles Compliance Framework, which came into effect with the amendment made to the "Corporate Governance Communiqué" of the Capital Markets Board (CMB) on 2 October 2020.

The Sustainability Report, which was prepared in accordance with the template determined in the CMB's resolution dated 23 June 2022 and numbered 34/977, was announced to the public on [www.kap.org.tr](http://www.kap.org.tr). The aforementioned can also be accessed in the "Sustainability Report" tab of the Company's page on the KAP website and on the Company's website at Investor Relations/Investor Relations/Reports/Sustainability Principles Compliance Report. (<https://www.sasa.com.tr/sustainability-sustainability-reports>)

SASA aims to leave a green and clean world for future generations by accepting all living and non-living natural assets as a respectable whole while meeting the current needs of our society. In line with the increasing world population and demands, it adopts a sustainable development approach that does not neglect future generations, meets the needs of today, and explores conscious consumption methods and alternative sources in order to maintain the existence of natural resources. The targets and actions determined in this context, the studies carried out and the Sustainability Reports prepared are presented to our stakeholders under the "Sustainability" tab on the Company website.

As a result of the Environmental, Social, and Governance (ESG) performance evaluation study conducted by the international independent auditor company Sustainalytics, the ESG Risk Score has been determined as 14.7 (low risk). With this determined ESG Risk Score, SASA has been ranked 7th among 609 global chemical manufacturing companies that have been risk-rated, and 1st in Türkiye.

SASA aims to ensure full compliance with the Sustainability Principles. In 2023, only principle B14 was not fully complied with and the actions of third parties to reduce greenhouse gas emissions were presented in the 2023 Sustainability Report.
